

# Daneel van Tonder

## Analyst Programmer

I am a Software Developer with hands-on experience, building software solutions mainly for the retail industry.

I specialize in Delphi and have professional experience working with C#, Xamarin, JavaScript, within an Agile environment. I also have experience working with Node.js, Next.js, and React.

I'm a Strong information technology professional with a Bachelor of Science (BSc) in Computer systems from Heriot-Watt University in the United Kingdom.

## WORK EXPERIENCE

### Analyst Programmer

*Pepkor IT • Cape Town • 2013 - Present*

My role is to develop software solutions that meet the requirements of our retailers. I also develop supporting applications to assist the retailers with their daily software-related problems.

**Skills:** Tortoise SVN · REST APIs · Github · Xamarin Products · Spring Framework · Jira · Borland Delphi · PostgreSQL · C#

### Software Engineer

*ThisIsMe • Cape Town • 2013 - Present*

Freelance Role, My role is to develop software solutions for the identity verification industry.

**Skills:** Jest · Amazon Web Services (AWS) · Bitbucket · API Development · Swagger API · JavaScript · Node.js · Git · TypeScript

### Operations Supervisor

*Indy Oil • Cape Town • 2007-2012* I was responsible for all of the warehouse duties and admin. From equipment and transport maintenance to making sure the plant runs on schedule and orders get delivered on time.
